

Agile Product Lifecycle Management Upgrade Services

When businesses upgrade Agile Product Lifecycle Management using Domain Systems' Oracle Professional Services, they leverage streamlined access to best practice implementation methods, resources, and tools.

Experience-Driven Approach is Speed and Reliability

Domain Systems offers an integrated portfolio of services for upgrading Product Lifecycle Management (PLM) solutions. Our PLM application experts, with functional expertise, guide you through every upgrade step. Domain Systems' specialists use repeatable components and best practices, drawing on deep customer experience to deliver upgrades with low costs, shorter timelines, and high quality.

Our best practices, templates, tools, and delivery mechanisms are bundled into discrete services and workshops supporting each unique upgrade project.

Domain Systems Professional Services

Our Oracle-specialized services team focuses exclusively on Oracle Product Lifecycle Management technologies, with experts sought after for leading practices in software implementations. We optimize your investment in products, providing tightly integrated, comprehensive services.

Scope of Offering

The Domain Systems' Professional Services approach to upgrade services is performed remotely using tools, methodologies, and best practices, including:

KEY FEATURES

- Unmatched expertise
- Integrated risk management
- Pre-established plans, documents, and solution assets

KEY BENEFITS

- Enhanced project productivity
- Forward-thinking workshops for unlocking software and process potential
- Consistency derived from historical success
- Improved resource efficiency and cost controls
- Reduced project complexity

- Project and resource planning
- Hardware architecture overview
- Clean up existing database w/ Averify
- Test, development, and production database upgrade
- Upgrade and migrate file manager
